

The diagram consists of two parts. The top part is a circle with a horizontal line passing through its center. A vertical line also passes through the center, and a diagonal line passes through the center from the upper-left to the lower-right. A sector of the circle is shaded in gray, bounded by the horizontal line, the diagonal line, and the arc. The bottom part is an irregular polygon with a thick black border, representing the shape of the shaded sector. The polygon has a horizontal top edge, a vertical right edge, and a complex left side with several horizontal and vertical segments of varying lengths.
